The Preferred Source for Metal Finishing and Deburring

Osborn is the world's leading supplier of surface treatment solutions and high-quality finishing tools for hundreds of industrial and commercial applications such as metal finishing, honing, surface polishing and welding. Professionals choose Osborn products because they are unsurpassed in quality and service life, and can be counted on to be rugged, efficient and compatible with their equipment.

Osborn stocks more than 10,000 standard products and provides more than 100,000 customized solutions. It offers the largest mix of heavy-duty brushes for surface preparation, cleaning and finishing. Osborn also creates specialty tools for applications that need a customized solution. When presented with the need for a new brush, abrasive or compound solution, Osborn has the people to make it happen. Customized solutions are created with the determination to pass on the greatest value to the customer, incorporating the optimum materials and manufacturing methods to ensure maximum performance.

With Osborn, you Finish. First.

For more information, visit www.osborn.com or visit us at **Fabtech, November 12-14 in Las Vegas, NV. We will be showcasing our welding consumables in the AWS pavilion in booth #N3309 and also be represented in the Finishing Hall in booth #C2737.**
