Osborn Improves Stringer Bead Brushes

CLEVELAND – September 2012 – Osborn offers refined TY™ encapsulated stringer bead brushes. The brushes were developed by Osborn, in conjunction with leading offshore pipeline companies to quickly and effectively clean J-weld joints.

The narrow-face, aggressive knots used to make the TY encapsulated wheel brushes have been refined with improved elastomers and are perfect for cleaning stringer bead welds.

“Welders in the pipeline construction industry choose Osborn products, including the TY encapsulated wheel brush, because they are unsurpassed in quality and service life,” said Jeff Naymik, marketing manager at Osborn. “The improved brushes provide the cleaning and finishing power needed for welding applications.”

Osborn is the world’s leading supplier of surface treatment solutions and high-quality finishing tools for hundreds of industrial and commercial applications such as metal finishing, honing and surface polishing. Founded in 1887, Osborn now includes operations in 15 countries and serves customers in more than 100 countries. A unit of Jason Inc., Osborn carries more than 10,000 standard products and more than 100,000 customized solutions to serve a diverse group customers and industries.
